90% Save Rate - Open Admission = No Kill

2012 Michigan Shelters by Save and Live Release Rate

Source Information: Shelter Reports as filed with the Michigan Department of Agriculture and Rural Development

2012 Shelters Name	County	2012 Save Rate	2011 Save Rate	% Change 2012 from 2011	2012 Live Release	Euthanized	Intake	Adopted	RTO	Transferred
--------------------	--------	----------------------	----------------------	-------------------------------	----------------------	------------	--------	---------	-----	-------------

Term definition:

Open Admission = Accepting all strays even if full and accepting or making arrangements for owner surrender when full, can be restricted to a geography.

Limited Admission = Only accepting animals when space is available at the shelter or in foster homes, selecting animals for intake..

Shelter statistics were obtained from the annual report each shelter submits to the Michigan Department of Agriculture. Each shelter was telephoned and asked their status as to Open Admission or Limited/Closed Admission. In rare instances a determination was made by the Michigan Pet Fund if the shelter met the intent of the definition but might operate on occasions with an exception or modification.

Save Rate is determined by the percent of adopted and returned to owner of total intake.

Live Release Rate is determined by the percent of adopted, returned to owner and transferred of total intake.

Shelters can achieve a save rate over 100% if animals from a previous year intake are adopted during the reported calendar year.
