## 2013 Michigan Shelters by Save and Live Release Rate

Source Information: Shelter Reports as filed with the Michigan Department of Agriculture and Rural Development

### 2013 Shelter Names

2013 Save Rate	2012 Save Rate	% Change 2013 from 2012	2013 Live Release Rate	2013 Total Intake	2013 Total Adopted	2013 Return to Owner	2013 Transferred	2013 Euthanized
----------------------	-------------------	-------------------------------	------------------------------	-------------------------	-----------------------	-------------------------	---------------------	--------------------

Term definition:

Open Admission = Accepting all strays even if full and accepting or making arrangements for owner surrender when full, can be restricted to a geography and managed intake.

Limited Admission = Only accepting animals when space is available at the shelter or in foster homes, selecting animals for intake..

Shelter statistics were obtained from the annual report each shelter submits to the Michigan Department of Agriculture and Rural Development. Each shelter was telephoned and asked their status as to Open Admission or Limited/Closed Admission. In rare instances a determination was made by the Michigan Pet Fund if the shelter met the intent of the definition but might operate on occasions with an exception or modification.

Save Rate is determined by the percent of adopted and returned to owner of total intake.

Live Release Rate is determined by the percent of adopted, returned to owner and transferred of total intake.

Shelters can achieve a save rate over 100% if animals from a previous year intake are adopted during the reported calendar year.
