**Data Coordinator**  
Lin Gardiner

*Dedicated to making Michigan a no more homeless pets state.*

**Position Statement:**

Dogs and cats come from a variety of environments and are classified from purebred to a mixture that a DNA test may determine. Twenty-first century research on behavior/temperament has scientifically demonstrated that an animal's breed type and environmental history cannot accurately predict their behavior/temperament. Each animal, like each human, is an individual.

It is the position of the Michigan Pet Fund Alliance that every cat and dog, regardless of breed type or environmental history, is an individual and deserves to be treated as such.

Michigan Pet Fund Alliance opposes any proposed legislation, law, policy or protocol that would discriminate against a dog or a cat based upon its appearance, perceived breed or history.

Adopted 2/28/2018
